EXPERIENCE

HolyCode – Yoordi Team   **Jan. 2023 – Present**
Full-stack Developer   *Hybrid*
- Contributed to the development of digital self-ordering and payment systems for the hospitality industry.
  - **Stack**: TypeScript, React, Node.js, Next.js, MySQL, MongoDB, Strapi, Azure
- Created the company website, implementing GTM, Analytics, Ads and SEO best practices to improve search visibility and performance.
- Developed automated tests using Jest and TestCafe to validate front-end and back-end functionality, integrating them into GitLab CI/CD pipelines to ensure continuous testing and deployment.
- Worked in an Agile environment, collaborating with testers, designers and other dev team members to iterate on new features and resolve technical challenges.
- Integrated third-party payment gateways and APIs, ensuring seamless transaction processing.
- Developed custom POS (point-of-sale) solutions tailored to client requests.

Quantox Technology   **May 2022 – Jan. 2023**
Front-end Developer   *Belgrade, Serbia*
- Developed web applications using React, Next.js, TypeScript, React Query, GraphQL and REST APIs.
- Built functional UI features and components in accord with Figma mockups using CSS and component libraries (MaterialUI, NextUI) and tools (Storybook).
- Used project management systems such as ActiveCollab, Jira and Trello.

LINK Group   **May 2021 – Apr. 2022**
Streamer   *Belgrade, Serbia*
- Used a distance learning program to livestream lectures at IT High school, IT Academy and related schools.

EDUCATION

Comtrade – CODE Academy   **2021 - 2022**
Frontend Development   *Belgrade, Serbia*
- Completed a 6-month certified frontend development course with exceptional results.

Singidunum University   **2020 - 2021**
Software Engineering   *Belgrade, Serbia*
